

08:00-10:30 Medtronic CoreValve EvolutR Implanters Meeting**OPAL I-III
room****Lectures:**

Past and Future - 10 years of CoreValve Evolut R in Poland – what is important for us now-durability and hemodynamics does it really matter?

Valve in Valve – supra annular valve function – what does it mean?

Evolut R – current status of latest studies.

Case presentation

Meet the Experts:

Jean-Claude Laborde, Marek Grygier, Zenon Huczek

10:30-11:00 Networking coffee break**11:00-12:30 TAVI Challenges & Complications****OPAL I-III
room**

Chairmen: Maciej Dąbrowski, Zenon Huczek, Radosław Parma, Piotr Suwalski

11:00-11:10 Hydra TAVI procedure (Maciej Dąbrowski)

11:10-11:20 TAVI-in-TAVI - new clinical scenario (Zenon Huczek)

11:20-11:30 TAVI in a patient with hostile aorta (Piotr Kübler)

11:30-11:40 Deferment of balloon valve expansion after TAVI with suboptimal outcome (Piotr Suwalski)

11:40-11:50 Successful TAVI - we can do everything from femoral approach - when to stop? (Aleksander Araszkievicz)

11:50-12:00 Transcatheter treatment of a degenerated sutureless valve (Jan Rychter)

12:00-12:10 Sapien 3 Ultra to treat iscupid aortic valve stenosis (Radosław Parma)

12:10-12:20 From surgery to TAVI with challenging access (Piotr Olszówka)

12:20-12:45 Networking coffee break**12:45-13:45 Simpler and safer TAVI****OPAL I-III
room**

Chairmen: Marek Grygier, Piotr Kübler, Piotr Olszówka, Damian Hudziak, Robert Gil

12:45-12:55 Feasibility with the new expandable Isleeve sheet (Kim Won-Keun)

12:55-13:05 MANTA Vascular Closure Device (Radosław Parma)

13:05-13:15 PerQSeal Vascular Closure Device

13:15-13:25 S3 procedure simplification-early discharge

13:25-13:35 When and how to perform aortic balloon valvuloplasty - the Valver experience

13:35-13:45 Local anaesthesia for procedure simplification and shortening (Gintautas Bieliauskas)

13:45-13:55 Discussion

13:55-14:30 Lunch

14:30-15:15 THT Conference Opening with Heart Team Award 2019

**OPAL I-III
room**

Chairmen: Andrzej Ochała, Adam Witkowski,
Wojciech Wojakowski

14:30-14:40 Conference opening, Golden Heart Award

14:40-14:55 Remaining TAVI limitations in 2019 (Jean Claude Laborde)

14:55-15:05 TAVI perspectives in Poland 2019 (Adam Witkowski)

15:05-15:15 Valve for Life - EAPCI initiative to improve use of
transcatheter valve therapies in Europe (Adam Witkowski)

**15:15-16:15 Breaking barriers in the transcatheter treatment
of structural heart diseases**

**OPAL I-III
room**

Experts: Andrzej Ochała, Adam Witkowski,
Wojciech Wojakowski, Jacek Legutko, Witold Rużyło,
Michał Zembala, Marek Deja, Janusz Kochman

15:15-15:25 Sapien and Melody to treat pulmonary artery diseases
(Witold Rużyło)

15:25-15:35 Next Generation mechanical expandable valve - Lotus
Edge (Adam Witkowski)

15:35-15:45 RCA to SVC fistula closure in patient with IM and IT
following MitrClip procedures (Jerzy Pregowski)

15:45-15:55 Sutureless aortic valve implantation: SAVR is here to
stay (Thomas Modine)

15:55-16:05 Next Generation Accurate Neo2 (Kim Won-Keun)

16:05-16:15 Transcaval approach as the secondary access in TAVI
patients (Gintautas Bieliauskas)

16:15-16:25 Bicuspid aortic valve implantation with Sapien 3
(Martin Sluka)

16:25-17:00 Networking coffee break

17:00-18:30 Edwards Ultra System Launch Symposium

**OPAL I-III
room**

Experts: Francesco Saia, Adam Witkowski,
Radosław Parma

Introduction - Martin Blazek

Product development - technical aspects
(Adam Witkowski)

Sapien 3 Ultra System (Francesco Saia)

Sapien 3 Ultra implantation using the Hologram
Augmented Reality (Radosław Parma)

19:00

THT Dinner

STRUCTURAL HEART INTERVENTIONS COURSE

08:30-10:00 **Most challenging structural cases of the year**

- OPAL I-III room** Chairmen: Janusz Kochman, Sławomir Dobrzycki, Krzysztof Kuśmierski, Piotr Kübler
- 08:30-08:40 Transseptal treatment of a degenerated mitral bioprosthesis using Sapien 3 system (Zenon Huczek)
- 08:40-08:50 Percutaneous Closure of Ventricular Septal Defect Resulting From Chest Stab Wound in an 18-Year-Old-Boy (Radosław Pracon)
- 08:50-09:00 Easy to get in, hard to get out - unexpected clip entrapment case (Jarosław Trębacz)
- 09:00-09:10 Left Atrial Appendage Occlusion experience (Witold Streb)
- 09:10-09:20 My most challenging LAAO case (Marek Grygier)
- 09:20-09:30 Tips on performing challenging PCI before TAVI (Marcin Protasiewicz)
- 09:30-09:40 Acute severe Acurate Neo valve regurgitation - successful treatment of an unusual case (Jarosław Trębacz)
- 09:40-09:50 PCI during TAVI (Radosław Targoński)

THT INTERVENTIONAL STROKE TREATMENT COURSE

10:00-11:30 **Interventional stroke treatment**

- OPAL I-III room** Chairmen: Wojciech Wojakowski, Piotr Musiałek
Panelists: Václav Procházka, Jan Baron, Anetta Lasek-Bal, Bartosz Kądziołka, Stanisław Bartuś, Witold Tomalski
- 10:00-10:10 Interventional stroke treatment in the Czech Republic (Václav Procházka)
- 10:10-10:20 Multidisciplinary Management of Ischaemic Stroke in Poland: Needs, Challenges, and Implementation Pathways (Piotr Musiałek)
- 10:20-10:30 Interventional stroke treatment in Poland: the solution (Anetta Lasek-Bal)
- 10:30-10:40 How to analyse MSCT prior to interventional stroke treatment (Katarzyna Gruszczynska)
- 10:40-10:50 Interventional stroke treatment using Medtronic systems (Bartosz Kądziołka)
- 10:50-11:00 Interventional stroke treatment using the Stryker system
- 11:00-11:10 Interventional stroke treatment using the Balton system (Witold Tomalski)
- 11:10-11:20 Penumbra system - first choice in the ischemic stroke (Marcin Miś)
- 11:20-11:30 Cerebral protection during TAVI procedures: the need, approaches and outcomes (Axel Linke)
- 11:30-11:40 Case Presentation (Tomasz Smyk)

11:30-12:00 **Roundtable discussion**

- Moderators: Václav Procházka, Bartosz Kądziołka, Piotr Musiałek
- Thromboaspiration vs stent retriever
 - Neuroprotection in tandem occlusion
 - Periprocedural pharmacotherapy
 - Stroke in patients with AF on NOACs

DODATKOWO ZAPRASZAMY NA WARSZTATY ORGANIZOWANE POD NAZWĄ:

„Keep the Brain in the Game - Warsztaty z trombektomem mechanicznym TigerTrievery z wykorzystaniem flow-modelu”

Warsztaty odbędą się w dniu: 8 marca 2019r.

Zapisy: Karina Michalska, tel. 534 505 900

THT MITRAL, TRICUSPID AND PULMONARY VALVE COURSE

12:00-13:00 THT Mitral, Tricuspid and Pulmonary Valve Course

- OPAL I-III room** Chairmen: Thomas Modine, Grzegorz Smolka, Wojciech Wojakowski, Michał Zembala
Panelists: Tomasz Hirnle, Dariusz Jagielak, Adam Rdzanek
- 12:00-12:10 Cardioband to treat the functional mitral valve regurgitation (Christian Frerker)
- 12:10-12:20 MitraClip to treat the functional mitral valve regurgitation (Wojciech Wojakowski)
- 12:20-12:30 Intrepid to treat the functional mitral valve regurgitation (Thomas Modine)
- 12:30-12:40 VinV in a box (mitral + ring, tricuspid) (Piotr Branny)
- 12:40-12:50 Tricuspid Regurgitation in pacemaker implantation after TAVI – influence on survival (Krzysztof Gołba)
- 12:50-13:00 MitraClip to treat the functional tricuspid valve regurgitation (Adam Rdzanek, Arkadiusz Pietrasik, Piotr Ściśło)

THT ANAESTHESIOLOGY IN STRUCTURAL HEART INTERVENTIONS WORKSHOP

13:30-14:30 Anaesthesia during structural heart interventions: round table discussions

- OPAL I-III room** Chairmen: Ewa Kucewicz-Czech, Radosław Gocoł
Panelists: Maciej Dąbrowski, Marek Deja, Wojciech Domaradzki, Marek Grygier, Tomasz Hrapkowicz, Kazimierz Kiermasz, Rafał Koba, Aleksandra Kret, Marceli Łukaszewski, Tomasz Maciejewski, Robert Musiał, Andrzej Ochała, Andrzej Walczak, Grzegorz Wysoczański, Maciej Zagórski
- General anaesthesia pro/contra
 - Sedation vs local anaesthesia
 - Pre- and post – procedural care

14:45 THT closing remarks and welcome to THT 2020

THT IMAGING WORKSHOP

10:00-11:00 THT Imaging Workshop

- OPAL IV room** Chairmen: Zbigniew Gąsior, Olga Trojnarśka
Panelists: Karol Miszański-Jamka, Mateusz Śpiewak, Piotr Lipiec, Piotr Ściśło
- 10:00-10:10 Novel echocardiographic developments – What is on the horizon? (Jarosław Kasprzak)
- 10:10-10:20 Echocardiography in mitral and tricuspid transcatheter interventions - What should I know? (Danuta Sorysz)
- 10:20-10:30 Magnetic resonance imaging – What are its uses? (Mateusz Śpiewak)
- 10:30-10:40 Cardiac Fusion US/CT?
- 10:40-10:50 How to become an interventional imaging specialist: a specific discipline requiring specific training (Tomasz Kukulski)
- 10:50-11:00 Discussion

THT NURSES AND TECHNICIANS WORKSHOP

10:00-11:30 Wady zastawkowe- zastawka płucna

- SAPHIR room** Prowadzące: Krystyna Czapla, Magdalena Lisiak
Panel dyskusyjny: Anna Sikora, Ewa Węglarz, Krystyna Czapla
- 10:00-10:15 Kwalifikacja chorego do przeszłórnej implantacji czy operacyjnej wymiany zastawki płucnej (Rafał Wolny)
- 10:15-10:30 Opieka pielęgniarska przed, w trakcie i po zabiegu implantacji zastawki płucnej (Eliza Szklarz)
- 10:30-10:45 Możliwe powikłania po zabiegu wymiany zastawki płucnej (Krystyna Czapla)
- 10:45-11:00 Edukacja pacjenta z wadą zastawkową serca- czy jest potrzebna? (Renata Mroczkowska)
- 25-30 min Panel dyskusyjny:
Edukacja pacjenta z wadą zastawkową serca - czy jest potrzebna?
